Laser Cutting Machines

JINFENG® is the professional China manufacturer and supplier of CNC laser cutting machines with affordable price. The CNC laser cutting machines are high performance thermal cutting machine for processing on metal sheets with high quality and good dimension controlled. For all the CNC laser cutting machines that manufactured by JINFENG WELDCUT will be delivered to

End-user with 1 years warranty.

CNC Laser Cutting Machines

For all the CNC laser cutting machines that manufactured by JINFENG WELDCUT will be delivered to End-user with 1 years warranty.

The CNC laser cutting machines are dual drive with servo motors. The rails for portal running on are made from railway rail with high hardness, which are precise machining and grinding by rail grinding machine to ensure the accuracy of the rails less than 0.02mm, thus to ensure the high quality cutting of the parts.

The CNC laser cutting machines are very popular in different industries for metal sheet processing.

Ningbo JinFeng Welding and Cutting Machinery Manufacture Co., Ltd
Address: No.337, 7th Xingci Road, Hangzhou Bay New Area, Ningbo, P.r.china
Tel: +86-574-63487698
Phone: +86-13456194991

Fax: +86-574-63487678
E-mail: export@jinfeng-weldcut.com

Specifications

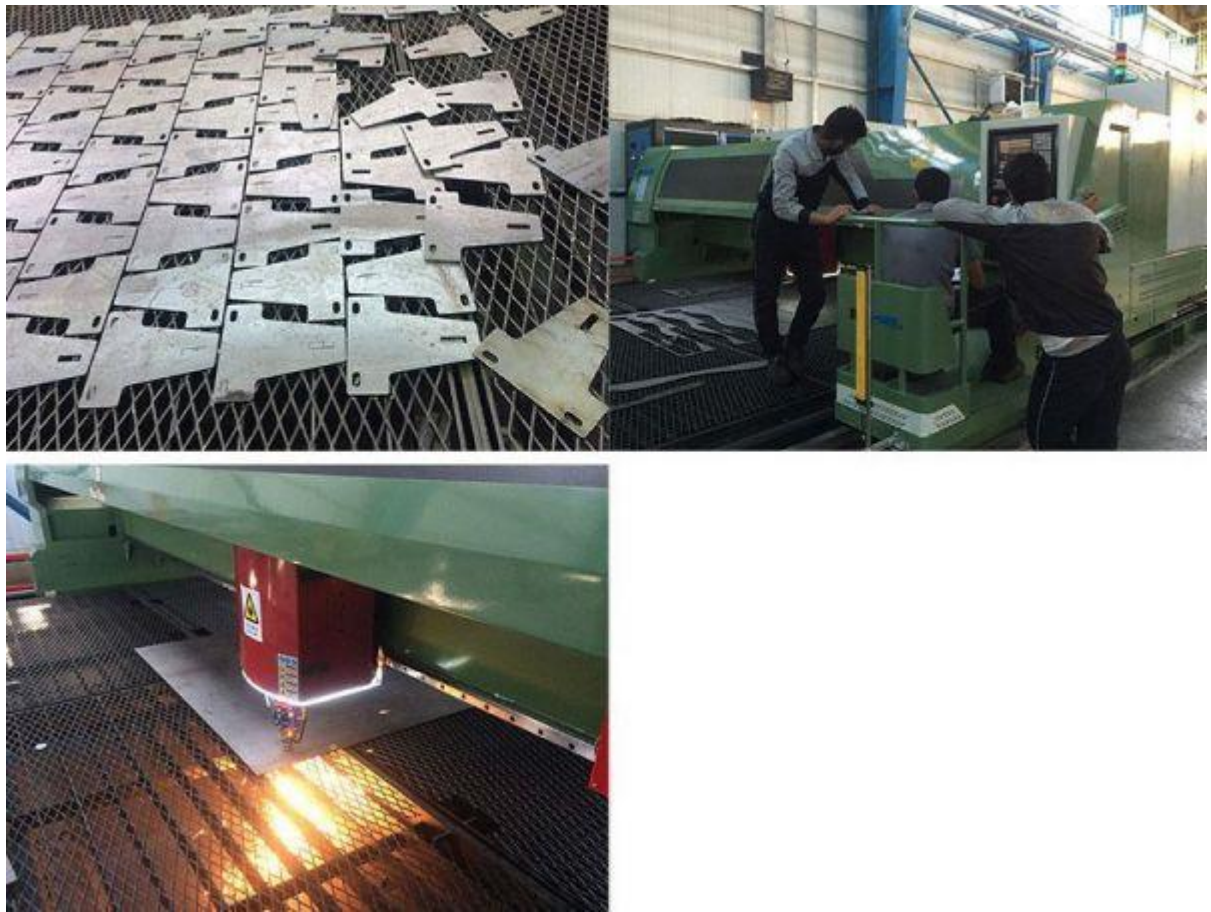

Model	MFG
Rail span	3m ~10m
Working width	Rail span - 1m
	Rail span – 1.5m
Rail length	>6m
Laser bevel head	Support
Laser vertical cutting	Support

Laser Cutting Machines Feature And Application

1. Unloading travel speed up to 36m/min for dual drive. (Higher speed as option)
2. Support different Nesting software that can create cutting program of DIN standard.
3. Simple and easy installation
